Dear Miss Davies,

Matters Arising Changes Schedule – Ynys Mon and Gwynedd Joint Local Development Plan (LDP)

Thank you for forwarding the Matters Arising Change Schedule to us for the Ynys Mon and Gwynedd Joint Local Development Plan (LDP) which was received on the 25th January 2017.

We have the following comments on the Matters Arising Change Schedule Written Statement, Proposals Maps, Habitats Regulation Assessment and Strategic Appraisal Report.

Matters Arising Change Schedule – Written Statement

- *NMC 101 ADN 1*

We note the amendments to criteria i) and ii). As identified in the document we consider that the amendment ensures that the policy reflect the higher level of protection afforded to national and international biodiversity and landscape designations.

- *NMC 110 New Policy ADN 1A*

We note and welcome the inclusion of new policy ADN 1A to provide a framework to address proposals for PV solar energy.

We are satisfied with the wording of the policy but would suggest that policy criteria 1) also refers to the need for proposals to demonstrate how the mitigation measures incorporated into the scheme will be managed for the life of the development.

- *NMC 115 ADN 2*

We note and welcome the amendments to policy ADN 2 to better align with Policy PS 7.

Draft Policy ADN 2 (2) (NMC 115) states that proposals for non-wind renewable and low carbon energy technologies, other than wind or solar, will be permitted provided that the proposal conforms to criteria including the following:

"2. that the proposal does not have a significant unacceptable effect on visual amenities". (MAC in bold)

"3. that the proposal is mitigated to ensure that there aren't any significant unacceptable effects on sensitive uses located nearby". (MAC in bold)

Bourne Leisure considers that emerging Policy ADN 2 (2) (NMC 115) should acknowledge the importance of protecting visual amenity specifically in relation to sensitive receptors. Given the importance of tourism to the local and regional economy and the connection between visual amenity and potential for attracting visitors, Bourne Leisure considers that the justification text for draft Policy ADN 2 should list holiday accommodation as a sensitive receptor. Otherwise, there is a risk that tourists may be deterred by these issues from visiting or returning to the area, thereby impacting on the local economy.

Bourne Leisure supports the requirement within draft Policy ADN 2 (3) for non-wind renewable and low carbon energy proposals to provide mitigation where they would cause significant unacceptable effects on sensitive uses.

However, Bourne Leisure therefore considers that protection should be provided against any unacceptable impacts, rather than "significant unacceptable" harm and that this protection should be extended to holiday

accommodation.

The Company suggests that draft Policy ADN 2 (2 and 3) is amended as follows:

“2. that the proposal does not have an ~~significant~~ unacceptable effect on visual amenities for sensitive receptors.” (MAC in bold, **proposed amendments in bold and underlined**)

“3. that the proposal is mitigated to ensure that there aren’t any ~~significant~~ unacceptable effects on sensitive uses located nearby”. (MAC in bold, **proposed amendments in bold and underlined**)

Draft Policy ADN 2 (7) (NMC 115) states:

“7. where required, the equipment and associated infrastructure are removed from the site in accordance with a restoration and aftercare scheme submitted to the Local Planning Authority.” (MAC in bold)

Bourne Leisure considers that this requirement is not sufficient to ensure that sites are restored at the end of the operation of an energy facility. The Company considers that an appropriate land restoration and aftercare scheme should be submitted to and agreed with the local authority in relation to end of the operational life of a facility. The following change is suggested:

“7. where required, the equipment and associated infrastructure are removed from the site in accordance with a restoration and aftercare scheme submitted to and agreed by the Local Planning Authority.” (MAC in bold, **proposed amendments in bold and underlined**)

Bourne Leisure considers that, as drafted, emerging Policy ADN 2 (2, 3 and 7) does not meet the second soundness test (is the plan appropriate?), as it does not address the key issue of protection for holiday accommodation from demonstrable harm from non-wind renewable and low carbon energy developments. It also does not ensure that sites will be restored once the scheme has ceased operation.

4. Os yw eich sylw yn 3 yn fwy na 100 o eiriau, darparwch grynodeb os gwelwch yn dda (dim mwy na 100 o eiriau).

4. If your response to 3 above exceeds 100 words, please provide a summary (no more than 100 words).

Sensitive receptors should be specifically protected against adverse impacts of renewable and low carbon energy development.

Given the importance of the tourism industry to the local economy, the justification text for draft Policy ADN 2 should list holiday accommodation as a sensitive receptor.

Bourne Leisure supports the Councils' approach in requiring mitigation for impacts on sensitive uses.

Protection should be provided against any unacceptable impact to visual amenity, rather than "significant unacceptable" harm.

Draft Policy ADN 2 (7) is not sufficient to ensure that sites are restored at the end of the operation of an energy facility.
